

# AROMATRIX TECHNOLOGIES GROUP

Your Total Solution To Odour Control

# Aromatrix Technologies

*Beenyup WWTP, Australia*

## AROMATRIX

The one thing we do, we do exceptionally well:  
Engineering odour treatment.

As a one-stop turnkey solution provider, you will find it easier than ever to solve your odour issues in the shortest possible time

We can guarantee the best service, the most competitive price and shortest delivery period for your system worldwide.

*Halls Head WWTP, Australia*

*Murrumba WWTP, Australia*

## OUR PRODUCT

Our products include :

- Biological Scrubbers
- Carbon Filters
- Wet Chemical Scrubbers
- FRP Air-duct & Accessories
- FRP Class-1A Dampers

## OUR EXPERIENCE

Aromatrix was established in 2002 with offices in Australia, Singapore, Hong Kong and China..

Our unrivalled technology, plus the quality of our products and our exceptional services have gained recognition in Asia, Australia, the Middle East and around the world. We offer the most cost effective means of treating odours in the fields of wastewater treatment, petrochemical, food processing and other odour related industries.

## 1. Biological Scrubbers

Aromatrix biological scrubbers are 100% environmentally friendly and highly efficient in removing odour. It employs state-of-the-art biological trickling filter technology, with a unique blend of micro-organisms that have been tested and proven highly effective.

## 2. Carbon Filters

Aromatrix carbon adsorption filters utilise activated carbon or other impregnated adsorbents to treat a range of pollutants such as hydrogen sulphide, mercaptans, dimethyl sulphide and other VOC pollutants. Our carbon filters are custom designed with single or double beds, for single, series or parallel operation.

## 3. Wet Chemical Scrubbers

Aromatrix wet chemical scrubbers can remove a wide range of acidic and/or alkaline pollutants from process air streams. Our systems are particularly effective for widely varying loads which may be unsuitable for biological methods. We also offer catalytic scrubbing systems in addition to conventional scrubbing to maximize chemical usage and minimize operating costs

## 4. FRP Dampers & Air-ducts

Aromatrix makes FRP dampers with leakage rates meeting the stringent AMCA Class-1A standard. We also produce zero-leakage dampers for air systems in corrosive environments, FRP Stacks, Hoods, Vacuum Dampers, Multi-blade non-return dampers can also be supplied.
